ATTENTION 6TH WARD

Ode To Moad

On Tuesday, April 5th It'll be time to select. And it's Woody Moad We hope you elect.

His motives are not hidden Behind some false mask, His intentions are To fulfill a much needed task.

Much noise has been made Concerning the ditch. What has our incumbent done To give us a fair pitch?

Ward meetings and representation Are truly long over due. Woody will act For the best concerns of you.

Our ward is big And our concerns are many, Woody will rely on the good people Of whom we have plenty.

Our streets, our sidewalks, Our traffic congestion. This, of-course, Is a major question.

Maryville road Will be an awesome sight. Do you think it could turn into a disastrous blight?

Some words have been said About council unification. Have our aldermen ever Had single identification?

For Woody the political arena Is something new. And he knows not to take voters for granted As others surely do.

We hope it's PARTNEY and MOAD Who receive your varification.

Are you health conscious? According to some physicians and researchers, yogurt is often prescribed in cases of digestive and intestinal disorders. A recent report printed in the Journal of Biological Chemistry also found one 8 ounce serving of yogurt to have an antibiotic value equal to 14 pericilian units.

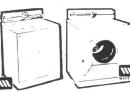

And since yogurt digests twice as fast as regular milk products, it can be consumed instantly while enjoying almost any activity.

But most important, it is tangy, but sweet, smooth and yummy while being healthful and dietetic. Frozen yogurt is like ice cream without guilt.

Spectacular progress in Granite City during the 1970s

As Granite Cityans prepare to choose unicipal officials tomorrow, they will municipal officials tomorrow, they will consider the competing candidates in the light of each citizen's perception of where the city is and where it is heading. While no community is without problems, Granite City has much to be reported.

contrasting with its original limited, "mill town" image.
Partly due to nationwide factors and obsolescence, the 1960s saw the number of manufacturing enterprises and jobs here shrink dramatically. But positive patterns have counteracted this during the 1970s.
Aided by fine schools and parks and such community-built facilities as the St. Louis region's best ice skating rink. Granite City is not just a place where one can live near his or her place of work. It is a city that stands tall on its own merits. Countless thousands live here by choice, even though they commute to work to do so.

With Granite City's downtown area

With Granite City's downtown area continuing to handle a big volume of retail and financial transactions, Nameoki Road has blossomed into a commercial center of undreamed-of dimensions and diversity. Maryville Road construction currently in progress will provide a wide thoroughfare, linking Route 203 with Route 162, that ultimately could rival Nameoki Road as a "great white way" of economic-cultural-entertainment-service activity.

Industry has begun a resubgence and nearly every plant is operating on a sound basis that gives assurance of stability. New savings and loan buildings have been opened and a new bank is being built.

A mammoth secondary sewage treatment plant has been placed in operation by the city, and adjacent townships are moving to utilize part of its canacity.

Instead of the kind of animosity that has caused stalemate and inaction at some periods in Granite City's history, dating back to the 1920s and earlier, government has functioned constructively and efficiently, without the kind of back-biting that turns every disagreement into

KEEPING YOU POSTED

Each year in March, The American Dietetic Association asks all of us to take a fresh look at our eating habits. As the slogan of National Nutrition Week points out: Nutrition ... Foodway to Fun and Fitness. A balanced diet and regular exercise can help you enjoy life more. As your food merchant, Kroger joins ADA in urging consumers to increase nutritional awareness and to shop wisely for A few decades back, consumers had only a few hundred items in their food store. Most fresh fruits and vegetables and even fresh meat were often not available for several months of the year. In contrast, your modern Kroger store carries about 12,000 items yearround for your shopping choice...providing all the variety, nutrition and enjoyable eating your family needs.

Get more nutrition for your food shopping dollar. Check nutrition information on labels. Plan your meals to include items from the Basic Four Food Groups: Milk and Dairy Products; Meat and Fish; Fruits and Vegetables; Enriched or Whole-grain Breads and Cereals.

Plan meals ahead, shop wisely, eat right and exercise regularly. Life is more fun when you're healthy!

We hear you and we're trying to help!
